AMUSEMENTS.

CALIFORNIA THEATRE.—Mr. Owens was greeted by a full and fashionable house on the occasion of his benefit last evening. The drama of *Self* was well played and favorably received; Mr. Owens's "John Unit" was a fine personation, and the other characters were sustained with commendable excellence. To-night, *Self* and *Ixion*. Mr. Raymond, the clever comedian, will have a benefit on Tuesday evening. Miss Charlotte Thompson, an actress of much eminence, is announced shortly to appear.

WILSON'S GREAT WORLD CIRCUS.—John Wilson has pitched his mammoth tent on the old Circus lot on Jackson street, and opened last night to a large audience. The performance was very successful. The portions of it which were particularly marked were the equestrian acts by the mysterious and ever-graceful and daring Zoyara, Dan Leon and the Masters Ducrow; the trick mules and ponies, and the triple bar and lofty trapez acts. The grand feature of the exhibition, however, was the performance of Mons. Lam-

FOREIGN INTELLIGENCE.

London, May 1.—The speech of the Mayor of Cork t the recent banquet in that city was the subject of a ong debate in both Houses of Parliament this evening. The attention of members was called especially o the Mayor's language respecting O'Farrell, who attempted to assassinate Prince Alfred in Sydney; also he reference to the Prince himself. The Tories upbraided the Government for being the indirect cause of the present state of Ireland. In the House of Commons, Mr. Bright thought the present condition

bert with four very large African lions. Outside of the ring, near the musicians stand, was an immense cage Curtains suspended in front of it concealed the animals from view until the time arrived for their trainer to go in. At 10 o'clock it was announced that Mons. Lambert would enter the den and give his first public exhibition of the lions. He made his appearance in the ring wearing a black uniform and carrying in his hand a small whip. He is a large and well formed man, and his face wears the expression of great courage and indomitable will. Some trouble occurred in pushing the curtains back, which he overcame by tearing them down at a single dash. The glaring lights seemed to startle the beasts, and they commenced snarling and growling in a terribly ferocious manner. The audience held their breath as the tamer stepped to the front of the cage and commenced unlocking the barred gate. The lions crouched in a corner, still snarling and growling. Lambert opened the door, kept his eye on his pets, fastened the door again, and started them out. One of them was exceedingly cross, but his master lashed him, stamped, and brought the brute to his feet. He obliged three of them to sit in a corner, and made the angry one leap over bars and through a small hoop many times. He sat on a small stool and required the beasts to lie down around him. After putting them through several other tricks, Mons. Lambert came out of the cage, much to the relief of the audience, who applauded him tumultuously. The same performance this evening.

Alhambra Theatre.—The entertainment at the Alhambra last evening for the benefit of George M. Ciprico was very well attended, and, aside from reprehensible action on the part of persons on the stage, the affair passed off in a satisfactory manner. Owing to the appearance of the Ghost (Rattler) in burnt cork, the beneficiary was compelled to tender the audience an apology and abbreviate the first act of *Hamlet*. Mr. Mestayer being necessarily absent, *The Raven* was read by Mr. Ciprico as a substitute for *Little Jenny*. Performance to-night.

Metropolitan Theatre.—Helier to-night.

Maguire's Opera House.—Performance by the Cotton-Murphy Minstrel Company this evening.

Kennedy's Songs of Scotland.—Mr. Kennedy, the distinguished vocalist, etc., will give a series of musical entertainments at Mercantile Library Hall, commencing Monday evening next. The programme, published elsewhere, comprises gems from the Scottish masters, humorous stories, etc.

of affairs in Ireland gave no cause for panic, but urged that both parties should strive to remedy the land grievance question at this session of Parliament. For himself, he would not remain on the Treasury Bench if he did not feel that he was honestly and energetically directing measures which would make a salutary change in Ireland. The settlement of the Church question will not stay the present outrages in that portion of the United Kingdom, but it is the first example that any Parliament has ever given that it was willing to do justice to Ireland; and is an earnest of that intent.

Gladstone followed in support of Bright. He had always found that the Protestant ascendancy in the form of religious establishments was the paramount cause of the mode in which the power of the landlords had been used, and by which the relations of tenants was vitally effected, and thought Lord Stanley had anticipated too much in demanding a policy upon the land question, and feared that misapprehension would attach to any representation that might be given now; but it was necessary to avoid the appearance of having suggested a measure from fear of a panic, or upon a momentary occasion. He concluded by saying that the Government was anxious to substitute for the present condition a state of confidence in the country and loyalty to the Crown.

Gathorne Hardy, Conservative, urged the immediate removal of the Mayor of Cork. He considered that the Government was bound to declare its policy on the land question, and thus dissipate the unreasonable expections of Ireland. The subject was then dropped.

FEARS OF ANOTHER OUTBREAK IN ITALY.

CHICAGO, May 1.—A *Republican* special says a prominent member of the House Committee on Foreign Affairs declares, very emphatically, that the Administration is determined upon, and only awaits the favorable moment for action. Appeals of an earnest character are being forwarded here from the Cuban Junta, praying for a speedy recognition, in order to end the atrocities of the Spaniards.

By advices from the Eastern Department it appears that Valmazeda has been for some time carrying out his brutal policy. In the latter part of March, the patriots having temporarily evacuated Jignanui, in order to carry on operations in the field, a portion of Valmazeda's forces made several sorties, during which they perpetrated great brutalities. Many houses were burned, peaceful occupants assassinated, and others taken prisoners and afterwards executed. The women and children, being taken along, were compelled to witness the executions.

The vote in the Mexican Congress in favor of recognizing Cuban belligerency stood 100 to 12. Advantage will at once be taken of this step. Arms have been shipped to Mexican ports intended for Cuba. Letters of marque will soon be issued. In view of this the patriots are making strenuous efforts to obtain hold of a port on the southern coast.

CHICAGO, May 1.—The Navy Department is making preparations for taking observations on the eclipse of the sun in August next. It has directed the Commander of the Atlantic Squadron to meet Prof. Coffin, Superintendent of the Nautical Almanac, at Yokohama on the 1st of July, from which point they will sail to Siberia. Prof. Coffin has decided to select either Ochotsk, Rensjinska, Siberia, or Norton Sound, Alaska, as the most favorable position. The Naval Appropriation Bill appropriates for observing the eclipse, the sum of $5,000.

CHICAGO, May 1.—There are a number of affidavits on file in the Indian Bureau from Creeks and Seminoles who served in the Indian brigade, declaring that they never have been paid; that the Claim Agent was in collusion with Indian traders, who were in the habit of buying up individual claims, paying in goods of which six per cent. was paid to the Agent and $16 charged for collection. The profits on fees alone amounted to nearly $100,000. The Indian Bureau and Interior Department officials under the late chiefs appear to have systematically suppressed all complaints and evidence.

A *Times* that says special despatches from Mexico were considered in the Cabinet yesterday. They contained a proposition to cede a portion of the territory of Mexico to the United States for a certain sum, not exactly known outside of official circles, but believed to exceed $3,000,000. The territory proposed to be ceded comprises the State of Sonora, Sinaloa and the eastern part of the Gulf of California. The proposition comes in the form of a protocol for a treaty, and is being negotiated principally by Señor Romero. It is made with the view of filling the coffers of the depleted Mexican treasury. It is understood that the Administration have decided on nothing.

The *National Intelligencer* contains a five column official report from Chauncey H. Snow, former Commissioner of the Union Pacific Railroad, which is severe in its attacks upon the construction of the road and its managing officials. The latter are pronounced wholly incompetent. Superintendent Snyder is accused of corruption in the manipulation of freight to his private advantage. Snow claims that only 200 miles are properly built. The rolling stock is insufficient and worn out. From Rawlings to Wasatch the track is laid on frozen soil, and not ballasted. He charges the regular Commissioners with having approved a worthless road through to Echo Cañon, over which they passed in the night time.

The report is pronounced malicious and untruthful by the editor of an evening paper who recently passed over the road.

CHICAGO, May 1.—The Spanish Government has never notified this Government of the existence of any revolution in Cuba, consequently negotiations with Great Britain regarding the seizure of the *Mary Powell*, are carried on as if no changes had occurred. The Spanish Minister has been instructed to ignore the in
