

FACTS ABOUT THE CUBAN REVOLUTION.

The Sun has compiled the following interesting figures concerning the progress of the revolution and the resources of the country they propose to free. The Sun hopes that belligerent rights will be accorded to these people:

The present movement for the liberation of Cuba from Spanish tyranny began on the 10th of October last, when 127 men at Yara under Gen. Carlos Manuel de Cespedes, declared for the independence of the island. In less than six months it has spread until it now embraces an area of 20,000 out of the 80,000 square miles included in the whole island. Within these limits there are 147 cities, towns, and vilages, of which more than one-half are in the hands of the revolutionists.

Out of the 150,000 men able to bear arms on the whole island 45,000 are in the ranks of the patriots; 30,000 of them being stationed in the Eastern, and 15,000 in the Central Department. The total population of the district in rebellion is 548,738, of which there are in the Eastern Department 126,368 whites, 86,374 negroes free before the revolution, and 51,778 slaves just emancipated by the patriot leaders. In the Central Department the numbers are 172,567 whites, 42,444 negroes formerly free, and 69,207 slaves new.

ly freed. The patriots have thus, it will be seen, given liberty to more than 120,000 slaves, and when they succeed in redeeming the whole island will do the same for 180,000 more.

The estimated wealth of the real estate in the territory held by the patriots was, in 1862, \$550,000,000, and its industry and commerce were reckoned as representing a capital of \$774,000,000. The annual productions were: Sugar, \$62,000,000; tobacco \$15,000,000; other produce, \$52,000,000.
