

The Cuban Revolution.

CHICAGO, September 25.—Washington specials say that advices from Cuba are discouraging to the revolutionists. They say two Cuban Generals have been assassinated, which compelled Cespedes to take command of the army. Serious trouble is apprehended with the American element in Cuba. The assassination of Gen. Marrino, it is said, was caused by want of confidence by the Cubans.

NEW YORK, September 25.—The Junta is blamed by the Americans who have gone to Cuba under its auspices.
