

## THE CUBAN MOVEMENT.

The Cuban movement in Washington city is beginning to assume a certain shape under female auspices. A meeting of ladies was lately held at the house of Senator Pomeroy, who himself may be regarded as a kind of a woman, at which a number wives of Senators were present and took part, together with a number of Cuban exiles. They have tried their hand on President Grant but he has assumed an attitude of non-intervention. We don't know what they mean to do. Indeed we question if they know themselves. We suppose they have too much idle time upon their hands. It is hinted that they have a romantic inclination towards mixing in the melee. If they have any leaning that way we hope the Secretary of War will furnish them arms ammunition and let them go and prove whether or not strong minded women are also strong handed. We do not want to see the ladies become *ennuye* for want of occupation, and as their soaring minds will not stoop to stitching and their large hearted philanthropy is too great and far reaching to see any suffering at home to ameliorate, we are decidedly in favor of their going to Cuba. We hope that every facility will be granted them in the accomplishment of their laudable and patriotic designs.
