Iberian Union—Official Report of Affairs in Cuba—Arrest of a Ship's Steward—The Earl of Carnarvon on the War.

MADRID, Sept. 24.—To-morrow (Sunday) will appear a manifesto, signed by all the Republican Deputies in the Constituent Cortes, in favor of Iberian union.

Official dispatches of an important character have been received from Cuba today. The Captain-General announces the near approach of the submission of all classes of people to the Spanish rule. When that has been completely effected he will accord them new liberties, among which will be the privilege to send Deputies to the Constitutional Cortes at Madrid, as is at present the case with Porto Rico.....The steward of the bark *Lebanon*, from Quebec, has been arrested here, charged with setting the vessel on fire....The Earl of CARNARVON yesterday addressed the Hampshire Agricultural Society. The burden of his speech was mainly on the losses of the war.
