Revolution Within Revolution—De Rodas and His Officers at Loggerheads—The Captain General Disregarded—The Cubans Beating the Spaniards in the Cinco Villas District.

KEY WEST, Fla., April 26, 1870.

The latest news received here from Havana states that General Valmaseca and the political governor of Santiago both decline to obey orders issued by Captain General De Rodas. They also disregard instructions from Madrid.

The Governor of Cabana's Castle also refuses to obey the orders of General Carbo, who endeavored to take possession of the fortress yesterday.

The Spaniards have been routed by the insurgents in several engagements lately. In the Cinco Villas district the destruction of property by the rebels has been very great.

Captain General de Rodas was expected in Havana on the 26th inst., when he intended to take such steps as would help to re-establish Spanish authority more firmly throughout the island.
