The Latest from the Captain General—A New Issue by the Spanish Bank—A Forged Check.

HAVANA, April 28, 1870.

The Captain General, under date of the 26th, telegraphs from Puerto Principe as follows:—The force at Najasa has killed twenty-six, including two chiefs and two Americans. The forces of Cannao killed seven, destroyed a powder and cap factory, 142 ranches, made twelve prisoners—among them the Prefect Betancourt. Thirty slaves presented themselves. The column Bandrich has entered with 130 prisoners. There has arrived from Cuvitas an insurgent detachment with arms and horses, bringing a convoy of carts, with their families, goods and animals. From Manito nothing new. Rebels in complete depression, without chiefs, as they have fled to the sea coast, hoping to escape. Agramonte has resigned.

A meeting of the planters, proprietors, merchants, &c., has been held at this place to adopt means to obtain funds for the expenses of the war. The Intendente explained the favorable condition of the Treasury, and as the result the Spanish Bank was authorized to emit \$5,000,000 more, which makes an issue of \$20,000,000 on the basis of a capital of \$5,000,000, though it should be stated that the faith of the government is pledged for the redemption of the former.

A young man, said to be a clerk in one of the mercantile houses here, yesterday presented at the counter of the Spanish Bank a check for \$10,000. As the alleged drawer had but \$6,900 in the bank he was sent for, a policeman meanwhile being called in. The check was pronounced a forgery, and the would-be financier was marched off to prison.
