

## **Reception by the President of the ex-Acting Consul at Santiago de Cuba.**

On Thursday the President received at the White House Dr. A. E. Phillips ex-Acting Consul at Santiago de Cuba. He was astonished to learn of the barbarities practised by the Spanish authorities towards American citizens, as well as the natives of the "ever faithful," and listened with marked interest to the statement of the Doctor concerning the position of our affairs in Cuba, and the injuries inflicted upon American citizens at the port of his consulate. A long conversation, ensued in the course of which the President expressed himself in a decidedly radical manner, and Mr. Phillips left highly delighted with his frank and cordial reception and with the sentiments expressed by the President.
