## Valmaseda's Clemency—Condemned Men Reprieved.

HAVANA, May 13, 1871.

A despatch from Santiago de Cuba to-day says that Valmaseda at the last hour reprieved Bepillo Horrutiñier and others who had been ordered to be shot at seven o'clock this morning.

The Consuls at Santiago express, in a telegram, the belief that Valmaseda's clemency in this instance warrants some hope for Keepers, who was arrested at Villa del Cobre for complicity with the insurgents.
