Revolutionists' President Replies to Assertions Made in Paris.

ABLE TO GOVERN THE ISLE.

Mr. T. Estrada Palma, president of the Cuban revolutionary party, in the United States, in an interview to the hero of the Cuban war, Mr. William McKinley, in Paris, sent to the European edition of the 

Herald, says:—

"I have with surprise and horror witnessed the transformations published in the European edition of the New York Herald. The statement that I am a 'revolutionist,' and that I have been invited to visit Europe for the purpose of negotiating with a party that is attempting to overthrow the government of Cuba, is a lie.

"I am happy to say that the government of Cuba is strong and the people are united. The government has the support of the majority of the people, and I believe that it will continue to govern the island.

"The situation in Cuba is different from that in the United States. The United States is a nation of free people. In Cuba, the government is struggling to maintain order and peace.

"The government of Cuba is not a slave government, as is often alleged. Cuba is a slave nation. The government of Cuba is not attempting to abolish slavery, but is trying to protect the rights of the free people of the island. The government of Cuba is not attempting to create a new society, but is trying to maintain the existing society.

"I believe that the government of Cuba is capable of governing the island. The government of Cuba is not a revolutionary government, but a government that is trying to maintain order and peace.
