

DRIVERS OF TRUCKS ON STRIKE IN CUBA

***But Taxi and Bus Operators Are
Still Uncertain on Joining
General Movement.***

Special Cable to THE NEW YORK TIMES.

HAVANA, Cuba, March 2.—Considerable mail was destroyed here today when incendiary bombs exploded on more than fifty mail boxes.

The authorities say the bombs were planted by radical agitators who are attempting to coerce employes of the Department of Communications into joining a general strike that is planned for next week.

Drivers of interurban trucks walked out today, but there is no indication whether other bus and taxi drivers will support the movement.

The Cabinet proposal to name a commission to investigate freight rates in which the drivers are demanding increases has been rejected by the truck drivers as unsatisfactory.
