Bomb blasts Quebec building housing Cubans

MONTREAL (CP)—A home-made dynamite bomb did heavy damage to five floors of an office building in the northern suburb of St. Michel yesterday.

No one was injured in the blast at the Metropolitan Boulevard building, which houses the Cuban trade mission to Canada.

Police said the time-bomb might have been meant for the building next door, where 300 to 400 Cubans live on the ninth and 10th floors. A number of Cuban offices, and the Cuban pavilion at Expo 67, have been the targets of recent bomb incidents.
