MIAMI (AP) Cuban exile leading guerrillas against Fidel Castro was badly wounded and captured in a firefight with government forces in eastern Cuba, the Cuban Exile Representation said Thursday.

The militant exile group said Maj. Amancio Mosqueda—something of a war hero in Miami's refugee colony—and his brother, Sixto, were captured in easternmost Oriente Province recently.

**IN ADDITION,** Castro troops captured Capt. Angel Luis Castillo and Francisco Cid, members of the Mosqueda party who infiltrated the Communist island months ago, a Miami spokesman reported.
