AMANDER SAFES,

Salamander Safes,

THE above Safe have met with accidental tests in the burning of the following stores and offices, and in every instance **PRESERVED THE BOOKS AND PAPERS ENTIRE,** although the Safes remained in the burning ruins, in several instances, 14, 16, 24, and 52 hours.

"One of Ri[illegible] *Patent Salamander Safes*, which I purchased the 2d of June last, of A. S. MARVIN 13[illegible] Water street, Agent for the Manufacturers, was exposed to the most intense heat during the late dreadful conflagration. The store which I occupied, No. 46 Broad street, was *entirely* consumed; the Safe fell from the 2d story, about fifteen feet into the cellar, and remained there 14 hours, and when I took it from the ruins it was cold, and from its appearance I should not have been induced to have it opened, but according to a request, I opened it, and found the Books and Papers [illegible] to have been touched by fire. The Safe is indeed worthy of the confidence reposed in it, and is sufficient to confirm fully the reputation that Rich's Safe has already obtained for its contents against all hazards.

WILLIAM BLOODGOOD.

New York, [illegible], 1845.

Extract of a Letter from Messrs. GOREE & KING, of Marion, Alabama.

"We annex a certificate, which can be used as you see fit. Such a Safe has Saved us, and we feel no hesitancy in making the fact public."

Certificate. Test No. 11.

By a fire which occurred in this village on the 21st inst. our Law Office, together with many buildings, was destroyed. We had one of Rich's *Improved* Patent Salamander, Safes, which was through heated red hot, passed through the fire, and the least damaged of many papers valuable to our [illegible]—the envelopes of a [illegible] paper [illegible] scorched. Some twenty-four hours after the fire the Safe was removed [illegible] hours were required for it to cool off. Our office was in the 2d story of a large brick [illegible] used in the construction of said house, being *pitch pine*. While the [illegible] was in the ruins [illegible] was not necessary to break the door open. From this test we feel no hesitancy in recommending "Rich's Patent Salamander Safe" as

Entirely Fire Proof.

TO THE PUBLIC.

A disappointment respecting the new type intended for this Directory, has delayed the present issue about ten days beyond the expected time of publication. Considering the dilemma in which we discovered ourselves to be when about eighty pages of this work had been composed, we cannot refrain from expressing our grateful thanks to our printer, S. W. Benedict, Esq., for the prompt and efficient efforts then made by him to recover as far as possible from the delay, by the employment of additional hands, as also by running an extra press, thus to secure the earliest issue of the work.

During the past year the following streets have been in whole or part, re-numbered:

Ann	E. Twentieth
Av. C	E. Twenty-first
Av. 4 (extended to Sixth street)	Horatio
Av. S	Market
Le Roy	Monroe
Clinton	Ninth
College place	Spring
E. Fifteenth	W. Broadway, (a part added to College place)
E. Eighteenth	W. Twentieth

Two streets (Le Roy and Ninth), were re-numbered *after the canvass for the names in those streets had been completed!* Le Roy street, accordingly, was re-canvassed and the *new* numbers obtained; but, as time would not permit a similar course with Ninth street, the *old* numbers in that street, (except in those few instances in which a personal application at this office caused the substitution of the *new* numbers), are continued the present year.

The MAPS of NEW YORK and BROOKLYN, engraved expressly for this work, will, we trust, give entire satisfaction to the numerous patrons of this Directory, for whose kind regards in this department of publication, it will ever be our pleasure, as well as pride, to labor.

V. B. PALMER,

COUNTRY NEWSPAPER SUBSCRIPTION,

AND ADVERTISING AGENCY,

Tribune Buildings,—opposite the Park, New York,

Embraces most of the best Commercial, Political, Religious, Literary Scientific, Congressional, Legislative, Reformatory, and Agricultural Journals, Prices Current, &c., in the United States, British Provinces, &c., for which he is the duly appointed Agent to receive Subscriptions and Advertisements at his respective Offices in the Cities of Philadelphia, New York, Boston, and Baltimore, and specially authorized by the Proprietors to make contracts and give receipts.

☞ Through this Agency a convenient, safe, and systematic means is afforded for giving publicity to business pursuits of every kind in which the wants of the people of the country are in anywise concerned.

"Every one is now obliged, *if he would keep pace with the times*, to aid his physical exertions in trade, or whatever business he may be engaged in, by due recourse to those means by which his business profession may become generally known. This is the *intellectual* part of his business, and the press is the great medium through which it must, at the present day, be developed."

NOTICES OF PALMER'S AGENCY.

From the Philadelphia Public Ledger, March 7, 1843.

We observe that V. B. PALMER, Esq., has commenced a business agency for newspapers of other cities, and different parts of the country. His advertisement in another column of the Ledger explains the nature of the business he has undertaken, and we have little doubt that it will not only be found convenient to our citizens, merchants, and others, but of advantage to the publishers of such papers as have authorized him to act as agent for the transaction of their business, and through them that he may reap a benefit to himself for the enterprise.

From the Louisville Democrat, Feb. 21, 1846.

This advertisement is published through the medium of V. B. PALMER'S "Subscription and Advertising Agency," a most useful and meritorious establishment. Mr. Palmer has, by dint of great energy and indefatigable industry, succeeded in organizing his Agency, and accomplishing, by means of it, objects that were deemed altogether chimerical when it was first commenced. His success has raised up a number of imitators, who now advertise Newspaper Agencies in the Eastern cities. Mr Palmer is no way connected with any of these. Having the most unlimited confidence in his capacity and integrity, he is fully authorized to make all necessary contracts as Agent for this paper. We wish it to be distinctly understood, that we have no other Agent in any of the cities of New York, Philadelphia, Boston, or Baltimore, and that all inquiries relative to such contracts, coming from these cities, even although directed to ourselves, will be referred to his Agency.

From the New York Tribune, July 11, 1846.

The business of advertising is imperfectly understood by merchants generally. Mr. PALMER'S great experience and extensive agencies enable him to give very important information and very valuable suggestions in these matters to all who may favor him with an interview. The subject, as presented by him, is certainly worthy the serious attention of all persons engaged in active business.

EDITORIAL CONVENTION IN NEW JERSEY.—The gentlemen of the Press in New Jersey recently held a Convention at which nearly all of the different papers were represented. Among other good things done at this Convention we observe the following, and recommend to the press in this State to do likewise.—*N. Y. Tribune, Oct* 26, 1846.

In the opinion of the undersigned, the following Resolutions should be adopted by this Convention:—

Resolved, That in the opinion of this Convention, it is inexpedient for us to acknowledge more than one agent in each of the cities of New York and Philadelphia for our several papers.

And, whereas, Mr. V. B. PALMER, of Philadelphia, has estab ished agencies in all the large cities at considerable sacrifice of time and money; and, whereas, we have the utmost confidence in Mr. Palmer, therefore,

Resolved, That we recommend him as a proper person to act as Agent.

From the N. Y. Daily Tribune, Nov. 6, 1847.

SYSTEMATIC ADVERTISING.—The time is gradually approaching when Trade will be carried on upon a system entirely different from that of our grandfathers—when, instead of many men doing a little business each, there will be a few engaged in traffic, doing each a very large business; thus liberating a great proportion of the agents and servitors of Commerce to be engaged thenceforth in Productive Labor. One principal agency in effecting this transformation is cash dealing instead of credit: but another, even more effective, is Systematic Advertising. The man who knows how to do business and has the means of doing it thoroughly with a moderate capital will furnish the basis of an extensive trade on the Cash system), will not much longer be able to clear his way without extensive Advertising. For if it be advisable to risk the cost of apprising one-tenth of the community that Peter Dombey sells the very best assorted Iron and Steel, Hardware, Nails, Cutlery, &c., at the lowest cash prices, it must be equally advantageous to extend the information to the other nine-tenths, since the increased expense of Mr. D. for rent, clerk hire, &c., &c., will bear no proportion to the increase of business which constrains it. The time is not far distant when the City Merchant whose rent costs him more than his Advertising will be universally regarded as one who don't understand his business, and will not long have any business to understand.

—This train of thought was recalled just now by the sight of a note from Dr. Fitch of this City to Mr. V. B. Palmer, of whose universal Agency for Advertising throughout the country Dr. F. is wise enough to be a libral patron. (Dr Fitch is the author of a treatise on "The Causes and Cure of Consumption," which was renewed with merited commendation on its appearance.) His letter to Mr. Palmer is as follows:

707 Broadway, N. Y., Oct. 8, 1847.

V. B. PALMER, Esq.—*Dear Sir:* Enclosed is the value of your accounts for advertising for me the last six months.—Allow me to thank you for the perfect good faith and skilfulness with which the business of your Advertising Agency is conducted. Your thorough knowledge of the wants of all parts of this country renders your advice an excellent guide for any or all who propose to advertise. My experience in advertising as directed and conducted by you has been sowing shillings to reap dollars. Please accept my thanks, and my very best wishes.

Respectfully yours,

S. S. FITCH.

OFFICE OF THE DIAPHRAGM FILTER,
349 BROADWAY, cor. Leonard Street, N. Y.

PURIFICATION OF WATER!

THE DIAPHRAGM FILTER.

This popular invention is designed to purify all river, hydrant, or cistern water, and will filter almost as fast as the fluid usually flows from the spout or faucet,—fast enough for cooking, and the washing of clothes. Bread, starch, linen, and various articles are much whitened by the use of filtered water; and thousands are improving the luxury of their Croton Bath, by removing the slimy, fishy, and vegetable matter from the water, by the use of the Diaphragm Filter, which has become established as a standard article of domestic use in all the principal Cities of the Union.

To be had in Philadelphia, at 209 Chesnut Street, opposite Jones' Hotel;—in Baltimore, at 3 South Street;—in Boston, at 451 Washington Street. (*Over.*

Principal Office 349 Broadway, New York.

LARGE
DIAPHRAGM FILTERS,

THAT WILL CLARIFY

200 Hogsheads of Water per Hour!

FOR

PAPER-MAKERS,

Starch, White Lead, and various Manufacturers,

AND FOR

SHIPS' USE.

Naval Officers, Ship Captains, and Officers of the Marine in general, can appreciate the importance of Pure Water, and readily understand the following remarks:

The water from the Croton and Long Pond, and indeed all river water, when long kept in wooden casks, undergoes a kind of putrefaction, contracts a disagreeable sulphurous smell, and becomes unfit to drink. The influence of the external air is by no means necessary to this change, for it happens in close vessels even more readily than when freely exposed to the atmospherical oxygen. The origin of this impurity lies in the great amount of animal and vegetable matter suspended in it, which, when collected from the Croton and Long Pond waters, as has been ascertained by experiment, consists of one gallon of impurity in every one hundred of the clearest water. This impurity, however minutely divided, with a sufficient warmth occasions fermentation, and causes the liberation of offensive gases. As all water becomes unfit for use merely in consequence of the admixture of these foreign matters, for water in itself is not liable to decomposition, it may be purified by the removal. All that need be done to secure pure water for the longest voyage, is to pass it through the Diaphragm Filter at the time of placing it on board. This Filter removes from the water all the impurities nearly as fast as it flows from the hydrant. They are portable, cheap and durable, and whenever this fact is known, no water would be carried to sea without first being cleansed. The Officers of the Navy, Masters and Owners of Vessels, are invited to witness the invention in operation at No. 349 Broadway, N. Y.

WALTER M. GIBSON,
For the Proprietors.

WOOD'S
PATENT RIVETTED STRETCHED
LEATHER BANDS,

For Machinery,

Was awarded the first premium in competition, at the Boston, Mass., Fair, 1847. a silver Medal and Diploma, for the best Stretched Leather Bands; likewise at the New-York State Fair, January, 1847; first premium and a Silver Medal at the American Institute Fair, New-York, 1846.

These Bands are made under the Proprietor's personal inspection, of the solid part of OAK TANNED LEATHER, and none other used; and are

Riveted with his patent Rivet and Burs,

Giving a smooth surface on both sides of the Band, and pronounced the greatest improvement ever yet made, in Riveting, as they can be run on either side; or a friction pulley can be run and not slip or jar as all other riveting does; they are stretched by machinery of HIS OWN INVENTION, of unlimited power. They are made to run straight and hold their width evenly. These Bands are to be had of his agents at Factory Prices, where references can be had of all those running in their vicinity, and of their superiority over all others. ANY INFRINGEMENT WILL BE PROSECUTED.

MAKERS AND IMPORTERS OF

DOUBLE-ACTION HARPS,

Ware-Rooms—295 Broadway & 56 Reade St.

NEW YORK.—ESTABLISHED IN LONDON, 1810.

These Harps are constructed on the most approved principles, with all the modern improvements of London and Paris; especial care is taken to fit them for the extremes of climate in this country, in which respect they are far superior to any of European manufacture imported in the usual way. Their touch and tone are of the finest quality, and it is believed unequalled.

The opinion of the first Musical Talent, in Europe and this country, is respectfully submitted.

THE

STREET DIRECTORY

OF

THE CITY OF NEW-YORK.

(*Corrected May 24th*, 1848.)

Entered according to Act of Congress, in the year 1848, by JOHN DOGGETT, JR., in the Clerk's Office of the District Court of the United States for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling house or store,—for instance, No. 80 Allen street, on consulting the Street Directory, you will observe that 68 Allen is on the right-hand of that street and on the corner of Grand, and 88 Allen on the right-hand corner of Broome: hence the desired number, 80 Allen, will be on the right-hand side of Allen street, between Grand and Broome.

Or suppose that you are going up Broadway and wish to take a cross street so as to call at 128 Bowery; on examination (see Bowery) of the corner numbers in the Bowery, you will observe that 127 Bowery is on the corner of Bowery and Grand;—hence, by passing from Broadway through *Grand street* to the Bowery, you are opposite to the desired number, (128.)

NOTE.—The streets above Twelfth street are divided by Avenue 5th, into East and West—as *East* Thirteenth, *West* Thirteenth—and the streets located as above described will be found, therefore, in this work under *East* and *West*. Some have supposed that *Broadway divided these streets into East and West*—but it is a mistake.
