TOILET INDISPENSABLES.

The Famous Preparations of

Dr. Felix Gouraud,

WHICH HAVE FOR MORE THAN A QUARTER OF A CENTURY BEEN EXTENSIVELY used by the fair sex of this country, and the circle of whose popularity has been constantly growing wider and wider, cannot be dispensed with by any lady who desires to be as beautiful as nature intended she should be.

His ITALIAN MEDICATED SOAP is the most efficient agent known for clearing and purifying the complexion. It infallibly removes tan, freckles, pimples, sallowness, ringworm, wrinkles, chaps, tetter, morphew, or any other deformity of the skin.

His POUDRES SUBTILES instantaneously eradicate superfluous hair from any part of the frame.

His LIQUID HAIR DYE possesses the singular property of changing light, grey, or red hair to the most magnificent black or brown.

His ORIENTAL CREAM imparts a softness, whiteness and brilliancy to the complexion, making it beautiful beyond compare. All these articles have triumphantly stood the test of time, and their superior merit is thus placed entirely beyond question. They can be procured at Dr. Gouraud's new and splendid establishment, 456 *Broadway*, three doors below Grand Street.—*Sunday Atlas.*

JOHN W. GOLD,
Improved India Rubber Roof Paint,
OFFICE, No. 154 EIGHTH AV., NEW YORK.
This Paint has no superior. It has, to an unerring certainty, abundantly demonstrated that it will resist the action of the atmosphere, expand and contract with the action of the weather, cannot be affected by Heat, Cold or Acid, it will make the leakiest Tin, Metal or Shingle Roofs impervious to water, thus defying the power of the elements; it will last longer than any other paint in use, a perfect protection to Iron Buildings, Shutters, Railings, &c. As a perfect protection to the Roofs of Public Buildings and Private Residences, I more particularly recommend it, knowing its merits. The paint is applied under my own personal supervision, every job is warranted, none but the purest materials are used. I use no Tar, Pitch or Rosin. For Sale Wholesale and Retail.

STEAMSHIP SUPPLIES.

W. W. TUPPER & CO.

MANUFACTURERS OF PATENT IMPROVED GRATE FOR STEAMBOATS, STEAMSHIPS, Locomotives, and other Furnaces. Office, 91 West Street, New York, between Cedar and Albany Streets.

This is to certify that we have and are now using the Improved Grate, of W. W. Tupper & Co., with the greatest results of economy. Our boilers are very destructive to Grates, and to lessen our expenses we have tried many kind of grates and patent grate bars. The Sectional Grate has proved to be not only 60 per cent. more durable than any other, but also a great saving of fuel; and for the past year it has been in use on our Boat, it has been no expense. Not one section has been renewed or replaced.

NOW READY!

THE SPIRIT OF THE FAIR.

Complete in 17 Numbers, from April 5, to April 23, 1864,

IN A NEATLY BOUND QUARTO VOLUME.

PRICE, $1.50.

At the request of numerous patrons of the "SPIRIT OF THE FAIR," the publisher purchased the stereotype plates and copyrights of the paper to supply bound copies for permanent preservation. The brilliant array of authors who contributed to the columns of this representative of the great Metropolitan Fair, have furnished a volume full of the choicest specimens of literature. Its pages fairly sparkle with gems of thought, humor, and pathos.

We append the following list of original contributors:

A NEW AND IMPORTANT SCIENTIFIC INVENTION.

[Patented, March 15th, 1864, by ELBERT PERCE.]

PERCE'S
MAGNETIC GLOBES.

FIVE INCHES IN DIAMETER.

Price, with Magnetic Objects, $3.50.

Believing that a correct image of the globe we inhabit is a needful article in every household as well as every school-room in the land, no pains have been spared to render these Globes reliable in every respect. The maps are full, correct, and elegantly colored, and being mounted on neat stands, the Globes will form an elegant appendage either to the library, the school-room, or the parlor.

In addition to these qualities, the "Magnetic Globes" are endowed with new and striking features, which will enhance their value, and which it is hoped will awaken an interest in these useful and elegant aids to knowledge heretofore unfelt. The Globes, being formed of a material possessing magnetic properties, can be used for the illustration of numerous principles which hitherto have been exceedingly difficult to explain intelligibly to the young.

A number of small, magnetic objects, representing the various races of mankind, varieties of animal and vegetable life, ships, houses, etc., etc., accompany each Globe, and as these objects will adhere to the surface of the Globe by the force of magnetic power, they afford a striking illustration of that great force which pervades our planet—the power of the Earth's attraction.

By the aid of these magnetic objects, the cause of the tides and other pleasing and instructive illustrations can also be given, and valuable assistance rendered to the study of natural history, and the kindred sciences; while the Globe itself is a reliable authority for Geographical study and reference.

The attention of scientific men and friends of education is respectfully called to this invention, in the hope that it will be found of sufficient interest to merit their favorable consideration.

☞ The Trade supplied. Circulars sent on application. Address

No. 40 ELDRIDGE STREET, NEW YORK.

WILSON'S

STREET AND AVENUE DIRECTORY

OF THE

CITY OF NEW YORK.

(CORRECTED MAY 1, 1863.)

Entered, according to Act of Congress, in the year 1863, by H. WILSON and JOHN F. TROW, in the Clerk's Office of the District Court of the United States for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 **ALLEN** Street,—on consulting the Street Directory (*see* **ALLEN**) you will observe that 68 Allen is on the right hand of that street and on the corner of Grand, and 86 Allen is on the right-hand corner of Broome; hence the desired number, 80 Allen, will be on the right-hand side of Allen Street, between Grand and Broome.

Or suppose you are going up Broadway and wish to take a cross street, so as to call at 236 Hudson Street, on examination (*see* **HUDSON**) of the corner numbers in Hudson Street, you will observe that 230 Hudson is on the corner of Broome; hence by passing from Broadway through Broome Street to Hudson, you are near to the desired number, 236.

NOTE.—Such of the streets as are divided into East and West, will be found in this work under E. and W.

PHILIP ROLLHAUS'S

IMPROVED

Patent Cooking Ranges

EIGHT SIZES,

ADAPTED

For Private Families, Boarding-houses, Dining Saloons and Hotels.

These Ranges have, for neatness, durability, and economy, not as yet been surpassed by any article of the kind. The external appearance of them is neat; are cast of the

BEST AMERICAN IRON;

the plates most exposed to the extreme heat are made extra heavy; the Oven Doors are made to swing, and not liable to break, as drop doors; having a long circulation of heat around each oven, they bake equal to a brick oven, require but a small quantity of fuel, and are therefore not so apt to get out of repair.

References to persons who have them in use in any part of this and the neighboring cities, may be selected at the Salesroom,

A policy of Life Insurance is the cheapest and safest mode of making a certain provision for one's family.—*Benjamin Franklin.*

A Policy of Life Assurance is always an evidence of prudent forethought; no man with a dependent family is *free from reproach* if not Assured.—*Lord Lyndhurst.*

There is nothing in the commercial world which approaches, even remotely, to the security of a well-established and prudently-managed Life Insurance Company.—*Professor De Morgan.*

There is no more advantageous or secure form of investment than a Life Policy in a Mutual Company. In the NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY it is the best investment that can be made; for, under all circumstances, you get good interest for outlay of premium paid, and in case of sudden or unexpected death, the legal representatives of the party insured are largely the gainers.

Cash Assets, Jan. 1st, 1864 - - - - $3,000,000.
Last Cash Return (now being paid), - 750,000.

40 PER CENT IN CASH PAID TO ALL INSURED.

This Company, established in Boston, Mass., in 1843, is the oldest and most reliable wholly Mutual Life Insurance Company in the United States, and has been uniformly successful, having always made large returns in cash to all the Policy-holders. Last cash return, just declared, and now being paid, 40 per cent., amounting to $750,000, and leaving a large surplus besides.

It is strictly a benevolent institution for mutual protecton, entirely beneficent in all its workings and tendencies, and is an excellent form of investment.

By the last report of the Insurance Commissioners, the surplus of Assets *over* liabilities was proportionately greater than any Life Insurance Company in the United States. Expenses proportionately "*less*" than any other Company.

This Company, being purely mutual, insures at the lowest possible rates; and if the premiums paid exceed the *actual cost*, the surplus is returned to the parties insuring.

Every fifth year, at the time of declaring the return to members, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time, and the surplus funds are divided *pro rata* among all the insured. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

Insurance may be effected for the benefit of married women, beyond the reach of their husbands' creditors. Creditors may insure the lives of debtors.

Parties at a distance may insure from blanks, which will be supplied and forwarded free of expense.

Printed Documents of an interesting character, showing the benefits of the Mutual plan, and the advantages generally of Life Insurance that this Company has to offer, supplied gratis, or forwarded, free of expense, by addressing

BENEFITS OF LIFE INSURANCE.

The principles of Life Insurance are now so well established, that they are no longer matters of experiment, and its advantages are beyond dispute.

The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father. Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world, and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from *reproach* if his life is not insured." The man who neglects to insure his house is condemned for imprudence. How much more improvident is he who refuses to insure his life? Every house may not be burned, but every man *must* die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially those of his own house, he hath denied the faith, and is worse than an infidel."

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day, commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object. And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans, are protected from the husbands' creditors. *The question is not whether one can afford to insure, but rather whether he can afford not to insure.*

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after death?

There are many other advantageous uses of Life Insurance, besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them, to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life, and provide for his family. In short, Life Insurance is applicable to all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject, by reason of the death of another.

The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community. It develops the amiable and generous traits of character, accustoms a man to think for others, induces habits of industry, economy, and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A *systematic* adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than all the combined wisdom of its legislators; so that a well-founded, well conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, philanthropical public institution; and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneous thrift, prudence, and forecast of individuals in conducting their own concerns.

SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner; for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank. An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Bank, it takes care of the depositor's money, and it virtually allows him interest upon his deposits: but it does more. What is of higher importance to the depositor, the Company engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are *three reasons* why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued some time with a laudable perseverance, but at last have been tempted to withdraw, and never had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, *binds himself to* make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say, that in a majority of cases the money saved to deposit in a Life Institution, *would not be saved at all, had they not insured.* 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which

every man is more or less liable, it often becomes a means of support when everything else is gone —cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. *Life is uncertain, while death is certain*; and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat themselves into the belief that they run no risk of dying, will not, of course, insure. No one, however, need consult books to learn lessons of mortality. 'Tis the burden of pulpit eloquence; the lesson of the graveyard; and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case.

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of $2,000, and for that purpose deposits annually $50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays $50 as an annual premium for a policy of Life Insurance, he will be SURE of leaving $2,000 to his family *whenever* he dies—in six months or twenty years! Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony JUST AT THE TIME IT IS MOST NEEDED.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

In answering this question, it will be necessary to explain, briefly, the

DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either *Stock*, *Mixed*, or *Mutual* Companies.

Joint Stock Companies issue at fixed rates, the *profits* being WHOLLY divided among the proprietors, and the enormous dividends thence divided have, in some cases, raised the value of the stock to *seven hundred per cent.* upon the amount paid in.

Mixed Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies are owned and managed *exclusively* by policy-holders, *all of whom* have their proportionate *share* in the surplus accruing from the business.

The *Mutual* Company is clearly the most perfect in *principle*, and experience has fully tested and placed beyond a doubt the *perfect security* of the system. No Mutual Company, when once well established, has ever met with disaster on account of the mutual principal; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In Mutual Companies, too, the assured have entire control of the funds; there is "universal suffrage," and the form of government is essentially "democratic." A Mutual Company divides the *whole* surplus among the insured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the Mixed companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the Stock companies, and only partially so with the Mixed companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a Mutual company, and had no limit as to its expenses. He says: "Purely Mutual Life Insurance Companies have been proved, by experience, to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.

It is a purely Mutual Company, and has made four distributions of surplus funds (1848, 1853, 1858, and 1863) in *cash*, amounting to OVER $1,500,000. It now has a well-invested fund of $3,000,000, which is much more than sufficient to meet all possible contingencies and make a large return to all the insured besides.

The New England Mutual Life Insurance Company do not pay their dividends in scrip, but always in CASH. At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against; and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus, payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) *become forfeited*. The cash distribution in 1863 amounted to $750,000.

Its *standing* and *economy* are unequalled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and the economy of the eighteen Life Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company FIRST in *standing*, i. e., in its ratio of value to

liability, and FIRST in *economy*. This Company's expenses are only 8 per cent. of the receipts, while those of the others *average* more than 11 per cent.! This is the *oldest* Mutual Company in the country, and, for that reason, must be the safest and most economical.

Its Directors are well known to community as men of integrity, sagacity, and experience in business; and *every year* the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

The New England Mutual Life Insurance Company has deposited with the Comptroller of the State of New York, $100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late ABBOTT LAWRENCE, and so profound a lawyer as the late RUFUS CHOATE, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

PREMIUM may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum, on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit; for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

In this Company a person cannot forfeit a policy until its value is worked out in insurance. For example, if a person pays four life premiums *in cash*, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay the annual premiums.

SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, *the Company consents to a surrender of the policy on fair terms*, if application is made for that purpose before it is forfeited.

All over and above the actual cost will be returned of the premiums paid.

Now is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!

A good and popular form of policy, and one much in vogue, is a policy for life, the whole premium being paid in ten annual instalments (which instalments may be paid quarterly, or otherwise); and if before the expiration of the ten years, the payments are discontinued, a paid up policy will be given for an amount proportionate to the premiums paid. On this form of policy a dividend is payable during the whole life of the insured. This form of policy enables the insured to make all the payments due on the policy in the prime of his life, thus guarding against future misfortune.

TAKE NOTICE.

☞ A party out of the city desiring to insure, may go before a respectable physician to be examined, and fill up the questions in the application with plain answers, yes or no, as the case may be. The doctor will also fill up the medical certificate on the application, and forward the same to this office, and I will send him the usual fee, upon receipt of the application, even if the risk should not be accepted by the Company.

Any further information will be promptly given, and blanks forwarded free of expense when desired.

PREMIUM HOSE, ENGINE, & HYDRANT

COUPLINGS.

The advantages of this Coupling over all others, are, that it is perfectly water and air tight, and can be used with ease and rapidity, and considering the many advantages, the saving of time, the durability, the ease of connecting and disconnecting, render it by far, superior to any other Hose Coupling now in use.

It is now in use by the Government, and many of our Cities. It is used on Railroads, Steamships, and in many Factories throughout the United States. It is also invaluable to Plumbers for Street Washers.

This Coupling has received testimonials from the Fire Department of New York City, of the City of Brooklyn, and all of the Insurance Companies of New York, the Board of Marine Underwriters, and Engineers generally throughout the Country. It is patented in Europe, and looked upon as one of the greatest improvements of the age.

This Coupling was used on the Engine and Hose that received the premium at the World's Fair in London. It also received the highest premium at the Fair of the American Institute.

The Atlantic and Great Western Railway are applying this Coupling to all of their locomotives.
