Cuban Representative Charges President Misused Funds

By Cable to THE NEW YORK TIMES.

HAVANA, Dec. 12—A motion proposing that President Fulgencio Batista be tried by the Senate for a violation of the Cuban Constitution was presented to the House yesterday by Eduardo Chibas, Representative of the Cuban Revolutionary party.

The President has disbursed public funds "capriciously by decree," according to Señor Chibas. This, he averred, is a usurpation of the powers of Congress and a direct intervention in politics.
