

PEACE TOWER, PARLIAMENT BUILDINGS

The Dominion Parliament at Ottawa consists of the Center Block and Peace Tower, the East Block and West Block. There are numerous other departmental buildings throughout Ottawa with the finest of them clustered on Parliament Hill. The main buildings were completed in 1865 though the Central Block and Peace Tower were reconstructed in 1916 when the old building was completely burned to the ground. The main building contains the House of Commons and the Senate Chamber. The Peace Tower has a carillon of 53 bells. The main entrance lobby is particularly interesting as is the Hall of Fame which extends from the lobby through to the Library. A magnificent view of the City from all sides can be seen from the parapet around the Peace Tower.

PEACE TOWER, PARLIAMENT BUILDINGS, OTTAWA, CANADA

Septre 14 - 1950.

Querido Miguel:

Esta mañana, ¡al fin!, recibí un cable de Ponchita diciendo que me mandaba por la vía aérea los dos últimos números de Bohemia. Es escandaloso, increíble, que me hayan tenido una semana entera, ocho días interminables, sin leer la sección En Cuba.

Por aquí ya está haciendo bastante frío, aunque yo no he usado el abrigo todavía por seguir las recomendaciones de mis médicos que me mandaron al Norte a coger frío. Evito los catarrros dándome por la mañana una ducha de agua tibia y otra de agua helada. Es mi vacuna anticatarral. Después de eso se siente uno como un toro. Un fuerte abrazo a Ortega, a Pancho y a todos los amigos de Bohemia. Eddy.
