There are enclosed as of possible interest to the Department three copies of some of the first issues of the new Ortodoxo newspaper La Verdad.

In announcing its appearance, the publishers of the paper made it very clear that it would be an oppositionist news organ supporting the Ortodoxo point of view.

The editor of the paper is Luis PEREZ Perdomo. The Embassy has little information regarding Perez, but will obtain biographic data concerning him and forward it to the Department as soon as possible.
