I telephoned Ambassador Butler today to inquire whether any definitive plans had been made with regard to President Grau's visit to Miami to receive an honorary degree from the University of Miami. I then referred to the Embassy's telegram of August 19 which indicated that tentative plans had been made for Dr. Grau to receive the degree on the 23rd, which I assumed to mean the 23rd of August. The Ambassador pointed out that the visit was to be made not in August but either on September 23 or a day or so thereafter. He assured me that he would keep me informed on the matter.
