Notwithstanding the disagreeable weather this morning a considerable excitement was manifested by our citizens in relation to the draft. Before 9 o'clock a large crowd was gathered on either side of Bank street, opposite the Marshal's office. The draft associations of the city have been doing a large business for the past few days, so as to ensure against any unceremonious removal from this to a less comfortable scene of action. Operations did not commence so punctual as on previous days, owing to the tardiness of the guard to come up.
