

*Affairs in Kansas* — Mr. Jonathan Crews, a citizen of Lafayette, Indiana, who has been for some weeks past in Kansas, was in this city yesterday, on his return. Business relations have, from time to time, called him into Kansas, for two years past, and he is well posted as to what has taken place. From him we have derived some interesting information of recent occurrences in that territory.

He knows all about the affairs at Franklin, the attack upon, and destruction of Col. Titus' house, and nearly every event that has transpired in the territory since the middle of August. He corroborates, in the main, the statements made by our regular correspondents, and describes the men acting under Lane's orders, and in all the late outrages, as the veriest set of scoundrels unhung. They have been guilty of burglary, robbery and violence to peaceable men and women, not only in one, but in many places, and they are there not with any view to settlement, but with a view to plunder peaceable, industrious and well disposed citizens.—*St. Louis Republican, 14th inst.*
