

KANSAS AFFAIRS.—Judge Lecompte, Chief Justice of Kansas, has been removed by the President, and James D. Harrison, Esq., a distinguished lawyer of Lexington, Ky., has been appointed. It is stated that the removal of all the officers of Kansas who have been connected with the difficulties there, has been determined upon, as a means of relieving Gov. Geary from embarrassment in his efforts to restore good feeling in the Territory.

The Boston Traveller very truly remarks that the predictions made by many before the Presidential election, that there was no probability of Kansas becoming a slave State, under any circumstances, and that peace and quietness would be restored as soon as the Presidential election had passed, seem to be in process of rapid fulfilment. We hear no more of crime and outrage from there now than is common in all thinly settled countries, on the outermost borders of civilization.

The Cincinnati Gazette (black republican) confirms the report that Col. Titus and other pro-slavery men in Kansas are about to leave for Nicaragua, and it says that it has been ascertained that a great majority of the bona fide settlers from the South as well as from the North have become free State men, having been made so by regard to self interest, as well as by disapprobation of the conduct of the border ruffians.

The same paper expresses its belief that the charges against the Kansas Aid Committees, of misappropriation of funds raised for the relief of the suffering free State people, are well founded. We give an exposition of this matter from Col. Harvey and ninety other free State men of Kansas.

The Kansas militia called into service by Gov. Geary, has been disbanded there being no further need of their services—peace having been fully restored. Col. Titus and other officers and some pro-slavery men are going to Nicaragua.

Fifteen more of the prisoners arrested and tried on account of the late difficulties have been discharged. Those who have been convicted are now allowed the liberty of the town of Lecompton, upon their parole of honor.

The Kansas correspondent of the Boston Advertiser says:—

I feel quite confident that Kansas will be free, and would advise emigrants from New England to come on early in the Spring. The lands here continue to sell very high. Those who come early can pre-empt lands near by these, and in good localities at \$1.25 per acre. The best portions will be rapidly taken. I think we may rely upon the Missouri river being kept free from the ruffians.
