

**GOV. GEARY.**—The Boston Chronicle truly says :

“The latest advices from Kansas leave no doubt that Gov. Geary takes the Border Russian side of the great controversy, and will be as much worse than Shannon as he is more sober. It is no longer doubtful that he has given the notorious Col Titus command of a battalion of ruffian militia to rob and harass the settlers on pretence of defending them! He has delivered over the 100 Free State men whom he caused to be arrested by the U. S. Dragoons for fighting in self defence, to Donaldson and Cato, by whom they are plundered and starved. On the other hand not a man of the ruffian bands caught plundering the Kansas people and threatening to exterminate them, has been arrested. All have been dismissed to go about their business. Not even an effort has been made to arrest the known murderers of Free State men.
