

Kansas News.

The following items of news from Kansas, from the Herald of Freedom of the 6th, will be found interesting.

Mr. Army arrived in town last Saturday evening. We hope he will become one of our permanent citizens. Mr. Hyatt, of the same National Committee, has been with us two weeks. These gentlemen have done much for Kansas. We are now better supplied with flour than ever before. Many thanks to our sympathizing friends East. Six thousand sacks of flour received from them and, stored in the Territory for present and future use, will make many a glad heart. There is now no fear of want.

This is evidence enough that the charges of Col. Harvie against the Emigrant Aid Society are, as we said last week, entirely groundless. There seems to have been some disagreement amongst the local offices in the Territory, but that appears to have been satisfactorily arranged.

Every house in Lawrence, public and private, is overrun with strangers who have recently entered the Territory. Most of them have come with the view of permanent settlement, and are searching for claims, and buying up city property. A greater amount of capital is now represented in Lawrence than has been at any former period. The future of Kansas was never so cheering as at present.

THE FREE PASSES IN KANSAS.—A dozen letters inquire the prospects of free Passes in Kansas—how many new ones are wanted, and where? A pass is needed at Leavenworth, and if any person has *capital* they wish to invest in such a shape, they will find a place. Any number of persons are *talking* of starting papers in the Territory, but as many do start, under present auspices, will find it a non-paying investment.

The hundred Free State prisoners at Le-compton have all either escaped, or been acquitted, save fifteen who are sentenced at Le-compton. The latter, we have no doubt, Gov. Geary will cheerfully pardon, when asked to do so, which we hope will soon be the case.

Col. Titus.—Before Col. Titus left Kansas, he offered to liberate any Free State prisoner who would join his command, and go with him to Central America. One man accepted his offer, so far as to promise to meet him, on the 10th of next month, at St. Louis. Titus then took him from the guard, and gave him his liberty.

This act shows a supercilious disregard for the legal authorities of Kansas, by Col. Titus, or it shows that our men were imprisoned illegally, in the mere wantonness of tyranny, to gratify a deep seated hatred against Free State men.

The Herald of Freedom is, we are glad to know, prospering. New subscribers are being received weekly. By way how many copies taken in this city? We hope there are a good many, and as this is about the time when our citizens got up clubs &c., we hope that those who design taking a paper from a distance will not forget the Herald; it is well conducted, is doing a noble work, and its contents will be as interesting as those of any paper published in the States.
