While at the EMILIO MILIAN Grand Jury this detective was approached by OSCAR ANGULO, news reporter for WHRZ radio, and the following transpired.

While commenting on the Grand Jury Mr. ANGULO asked if there had been a problem with Mr. NIGAGLIONI. This detective asked why and ANGULO related that NIGAGLIONI was very hot because he got fired from the Grand Jury.

This detective explained that this did not happen but that due to NIGAGLIONI'S friendships and backslapping with some of the subjects of the investigation, the concerned departments had opted for not using him during the secret Grand Jury testimony.

ANGULO then stated that NIGAGLIONI was a very dangerous man and that he was very close to BRIGADE 2506 Military Director ARMANDO LOPEZ-ESTRADA and President ROBERTO CARBALLO; that he had on occasions called these men and others to offer information to them in respect to their trials (referring to LOPEZ-ESTRADA'S and PEDRO GIL'S recent trial in Federal Court for conspiracy to violate U.S. Neutrality Laws). For further information on this subject see prior reports.

ANGULO further stated that NIGAGLIONI was well acquainted with many defendants in criminal trials and that on many occasions joked and backslapped with them.

No other information available.
