

*Harana, Feb. 8.*—Engagements between the rebels and troops are reported in the vicinity of Cienfuegos, but they are represented to be mere skirmishes without important results. Two thousand troops are expected to arrive to-morrow from Spain. The Spanish party appear to be confident that the rebellion will be finally put down. The authorities are filling the prisons with suspected parties, while the emigration of Cubans from the island is increasing. Several tugs have been chartered and armed by the government and are now cruising along the shore to intercept leading parties. Col. Lono arrived here yesterday with Senor Udeata, a Spanish official of high rank, as a prisoner.
