Captain General Dulce yesterday issued a proclamation, addressed to the citizens of Havana, in which he referred to the events of the day before, and says that his promises of maintaining order and justice have been observed. The man who had been executed was probably instigated by others to create a disturbance, and it was necessary to act in his case with exemplary severity. At this very moment the Government was sending out of the country the more astute but equally culpable men. The proclamation concludes with a flattering address to the volunteers.
