

Europe.

By special telegrams through the French Atlantic cable from Florence and Madrid, dated yesterday, we have reports of a Cabinet crisis in Italy, of the conferences of the King with leading statesmen and the formation of a new Ministry by General Menacrea, as well as the assertion of a Madrid Journal to the effect that King Victor Emmanuel has accepted the throne of Spain on behalf of the Duke of Genoa.

M. F. de Lesseps has been decorated with the French Cross of the Legion of Honor. The elections in Paris were proceeding quietly. Napoleon arrived at the Tuilleries from Compiègne. The Suez Canal inauguration fleet, forty-five steam vessels, arrived at Suez yesterday, after very little trouble, and in good order. The depth of water in the canal ranges from twenty to twenty-five feet, and may be deepened. The arrangements along the line are excellent. Waghorn's statue will be erected to-day. The Empress of France will return through the canal with the fleet.

Cuba.

Cholera, yellow fever and small-pox are raging fearfully at Santiago de Cuba, 300 deaths having occurred from cholera alone within the period of thirty days. It was found impossible to give the dead proper sepulture, the bodies being covered only with a few inches of earth. As a consequence the stench from the cemetery has almost become a pestilence. The Cubans in the interior profess to be confident of success and are giving the Spanish troops much trouble.

Demerara.

A cargo of 476 coolies, sent out by an agent from Calcutta, has arrived at Demerara. The scheme meets with no favor and will prove a great loss. The Governors of Bermuda, Barbados and Jamaica proposed to send convicts from those islands to Demerara to serve out their sentences, Demerara to receive the benefit of their labor, but the Governor declined to have the colony transformed into a penal settlement.

Venezuela.

The government forces have succeeded in regaining possession of Maracaibo, and that port is again open to commerce.
