

THE WAR IN CUBA.—Hostilities are being actively carried on in Cuba. From Havana, under date of yesterday, we have Spanish reports of fighting at various points of the island. The accounts from Remedios, Sagua, Villa Clara, and Santi Espiritu go to show advantages on the part of Spaniards. In a fight which took place between Sagua and Villa Clara the insurgents lost, it is said, twenty men, including Major Marquez. They were unfortunate in the same locality a short time since. It is bloody work and exceedingly demoralizing. How long will it continue, or will any greater Power interfere?
