

---

We have a report this morning from Cuba that a meeting of representatives from all parts of the Island was recently held under the presidency of Cespedes, and declared unanimously not only in favor of an energetic continuation of the war, but of annexation to the United States. Gen. Quesada is said to have again been elected Generalissimo of the Cuban forces. Nothing has heretofore indicated that the desire to be annexed to the United States prevailed among the Cubans, and the above report of the unanimous passage of resolutions advocating annexation stands, therefore, in need of confirmation.
