

Gen. Goicoria, Senor Alfaro, and other officers confined at Indian-st. Jail, were last night presented by Wm. H. Reagan with a beautiful banquet of choice flowers, arranged to represent the flag of Cuba. The white stripes and star were composed of tuberoses, the blue of violets, while the field of red in which the star is placed is of geranium flowers. The design is particularly rich in coloring, and the skill of the florist has been exerted to its utmost, and with charming effect.
