COURTS IN PENNSYLVANIA.

SUPREME COURT.

The Supreme Court holds six terms for arguments, &c., in the Five Districts of the State, and adjourned Courts as they may deem necessary. The regular Terms are—

For the Eastern District, composed of the City and County of Philadelphia, and the Counties of Delaware, Chester, Montgomery, Bucks, Northampton, Lehigh, Wayne, and Pike, at Philadelphia, in March, to continue two weeks, and 2d Wednesday in December, to continue three weeks. The last Monday in July is the return day for July term, but no court is then held.

For the Lancaster District, composed of the Counties of Lancaster, York, Dauphin, Lebanon, Schuylkill, and Berks, at Lancaster, 2d Monday in May.

For the Middle District, composed of the Counties of Northumberland, Union, Columbia, Centre, Mifflin, Juniata, and Huntingdon, McKean, Clearfield, Lycoming, Potter, Tioga, Bradford, Susquehanna, Wayne, and Luzerne, at Sunbury, 2d Monday in June.

For the Western District, composed of the Counties of Alleghany, Westmoreland, Somerset, Fayette, Washington, Green, Beaver, Butler, Mercer, Crawford, Erie, Warren, Venango, Armstrong, Indiana, Jefferson, and Cambria, at Pittsburg, 1st Monday in September, to continue four weeks.

For the Southern District, composed of the Counties of Franklin, Adams, Cumberland, Bedford and Chambersburg, on the Monday week next following the last week of the Term of the Western District.

Piano Fortes.

We, the undersigned, take great pleasure in recommending to the lovers of music, an article manufactured by D. B. GROVE, termed by him the

Grand Action Piano Forte:

An instrument which for tone, delicacy of touch, grandeur and durability of workmanship, is not surpassed by any made in this country. Too much praise cannot be awarded to his enterprising workman for the skill displayed by him, in the manufacture of these instruments, the whole interior arrangement of which, is, we understand, the production of his own ingenuity and invention.

We are gratified to learn, judging from the great demand for this article, and the very extensive sales made in this city and in various sections of the country, that he is about to be amply rewarded for the heavy expenses incurred in bringing the article to its present state of perfection.

We feel great confidence in recommending those who may be desirous of purchasing, to call at the establishment of Mr. GROVE, No. 338 Market street below Tenth, believing that they may procure on the most advantageous terms, all articles in his line, that will on trial give entire satisfaction.

THE WASHINGTON HOUSE.

CAPT. J. P. JEFFRIES,

No 223 Chesnut Street, next door to the Masonic Hall,

PHILADELPHIA.

THIS splendid NEW HOTEL is now openfor the reception of company. The establishment was begun, continued and finished, with the express design of securing to the city of Philadelphia, the desideratum—a house *capacious*, yet *commodious—public* yet *private*. A Hotel, where men of business might find accommodations suited to their active habits; and, where families might enjoy all the comforts of a *private, fashionable* mansion. How far the proprietor has fulfilled this object, he confidently submits to the opinion of those who may please to honour THE WASHINGTON with a visit.

The situation is one of the most central, in the most fashionable street in this city. The *Public Dining Room* and *Public Parlor for Gentlemen* are on the most extensive scale. The *Private Parlors for Ladies and Families*, to which there *is a private entrance*, are furnished in the most tasteful and fashionable style. The *Ladies' Dining Room*, or *Private Ordinary*, is arranged in keeping with the Private Parlors, all of which cannot be excelled in design and finish.

To those of the travelling public, whom the proprietor has had the honor to serve in his capacity of Master of the Steamboats of New York, Philadelphia and Baltimore, he needs say but little, trusting his assiduity heretofore will prove to them a sure guaranty for the future. But to *all* who may favor him with their company, he pledges an unremitting watchfulness and attention, to secure to them comfort and convenience, whilst sojourning at the WASHINGTON.

SHOE BLACKING

The Subscriber respectfully informs the Merchants and public generally throughout the United States, Storekeepers, and Boot and Shoe Manufacturers, that he manufactures on an extensive scale, and on very moderate and accomodating terms, as sucecssor to Stubbs and Allan, at

NO. 385 MARKET STREET,

AND

No. 124 S. Front St., near Dock St. Wharf, Phila.

The genuine, unrivalled, and matchless COLUMBIA LUSTRE PASTE BLACKING, and HEEL BALL, warranted without the least adulteration whatever. The astonishing brilliancy of the Polish, the little labor required to produce it, its beneficial effects in preserving the leather, recommend it on trial. After leather is polished with it, a white handkerchief may be rubbed over its surface without soiling it, and white summer pantaloons may be worn without being soiled. It is warranted to keep for any number of years, without moulding in any climate. PRICE REDUCED.

HENRY LYE.

June 19th, 1838.

I have this day examined HENRY LYE'S BLACKING, and pronounce it to be the real genuine *STUBBS' and ALLAN'S BLACKING*, and advise my old customers to purchaseof him, at No 385 Market street.

W. & Stubbs

JAMES S. MASON

Respectfully informs exporters and merchants generally, that he has removed his business stand from No. 95 Callowhill street, to 192 north Third street, between Callowhill and Wood streets, and between the Pennsylvania Farmer and the White Horse Tavern, where he will keep on hand an extensive supply of his celebrated

CHALLENGE BLACKING;

Put up in cases and casks, ready for shipment or otherwise.

The reputation of Mason's Challenge Blacking is fully and permanently established, both in this and the Southern, Western, and other markets. It is suitable alike for all climates, as years of experience have proved, and from its acknowledged superiority over every other Blacking, it is recommended with perfect confidence.

The manufacturer has, in his possession, certificates from the most respectable and well known Druggists, Chemists and merchants in this City, bearing testimony to the unparalleled excellency of the Challenge Blacking. The certificates can be seen at his store, where the public are respectfully invited to call and examine them.

Mason's IMPERISHABLE Black Writing INK,

Manufactured from the very best materials and warranted to maintain a beautiful blue-black, to flow freely, and not to injure metallic or any other pens in the slightest degree. This article is put up in good shipping order, in 1, 2, 3, 4, 5, 6, 8, and 12 oz. bottles, and will be found cheaper than any thing else of the kind in any market.

Essences of Peppermint, Lemon, Cinnamon, &c. of superior quality, prepared by James S. Mason, warranted pure.

J. S. M. has been appointed agent for Fahnestock's Vermifuge, for the destruction and cure of Worms: one of the most valuable and popular medicines in use, which he will sell at the manufacturer's prices. Certificates of its efficacy may be seen at the store, 192 North Third street.

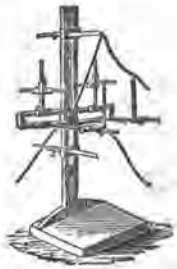
Measuring Machine.



Ellis and Allen, Merchant Tailors,

NO. 16 SOUTH EIGHT STREET,

Would most respectfully call the attention of the public to their improved System of Cutting, which for perfection of principle and simplicity in application, is warranted not to be equalled by any other method ever adopted, as the shapes and positions, which are as necessary to know as the size, cannot be obtained without a similar instrument. It has been the study of the inventor for the last three years to perfect the art, which he feels confident he has accomplished in the production of the Measuring Machine, the superiority of which, over any other method, he holds himself ready to prove by trial to any who may doubt the fact. All coats made at this establishment are warranted to give entire satisfaction, both as regards fit and workmanship, in default of which the money will be refunded,

An Assortment of Goods

OLMSTED'S

PATENT

STOVE,

MANUFACTURED BY SAMUEL LLOYD,

And Sold, Wholesale and Retail, by

JAMES E. P. DEAN,

At the Girard Buildings, 406 Market St.

PHILADELPHIA.

The objects aimed at in the construction of this Stove are—to be simple, so that it can be easily managed—to be quickly kindled—to be capable of affording a mild or intense heat, according to the weather—to preserve the air of the apartment pure and wholesome—to avoid all inconveniences from dust, and finally to be cheap, durable, and economical in the use of fuel. How far this apparatus fulfils these conditions, may be inferred from the following certificates and recommendations.

Extract from an article published in the Franklin Journal, as the result of some experiments on Temperature, connected with the use of PROFESSOR OLMSTED'S STOVE, *by J. Griscom, L. L. D.*

After "registering" many interesting and important facts in reference to the Stove, he adds. "But there are two other advantages in the construction which Professor Olmsted has adopted, *First*, by increasing the extent of heated surface, so as to prevent the iron from ever becoming so hot as to loose its polish by oxidation, and thereby not only to become itself rapidly deteriorated, but also greatly to injure the quality of the air. *Second*, the cold air which enters the room, and necessarily forms the lower stratum, flows towards the stove, and ascending in the open and heated cylinder of the radiator, forms a rising column of warm air, which by its diffusion produces a mild summer heat throughout the chamber, rendering unnecessary the evaporation of water to counteract the usual deleterious effects of a hot stove I found on one occasion the temperature of the air in this heated column to be 150 degrees, while at the same time the thermometer, with its bulb resting on the last joint of the stove-pipe, sunk to 110 degrees, the thermometer in the room being then 70 degrees, and outside of the house 36 degrees. Both the furnace and the radiator may be too hot to be endured by the hand, while the end of the pipe remains barely warm."

PENNSYLVANIA TRUE TO HERSELF.

ECONOMY

Being the basis of future wealth and comfort, should be studied and practised by every house-keeper, and as economy in fuel is one of the most important branches of house-keeping, I have made it my close study for several years past, and have at last, by dint of application and perseverance in my experiments, planned and completed a small

COOKING STOVE,

To which I would invite the attention of the public generally, as I am convinced it is one of the most simple, will consume less fuel, and do more cooking, than any other stove ever yet introduced into this or any other market. **Price $15 to $30**; also,

KIRK'S PATENT

FUEL SAVING

House Heater & Cooking Stove.

(Stove 30 inches high by 45 wide.)

Having been fully tested for the last two years, and given such ample satisfaction to a great number of families who have them in use, and who have been so kind as to furnish us with more than forty letters and certificates stating how they like them. These certificates may be seen at the store, and will, it is believed, satisfy any one of their great utility, safety and economy, combining comfort with convenience, for which it is believed they are not surpassed by any thing of the kind, that has ever yet been introduced to the public, who are respectfully invited to call and see them, and to judge for themselves. Some of these stoves have perpetual boilers attached to them for the purpose of giving a full supply of hot water for bathing and all culinary purposes.

HIS ESTABLISHMENT IS AT

No. 414 Girard Stores, Market St. Philad'a.

Where a sample of the above Stoves may be seen, and orders received.

N. B Having received the patent right for these stoves, the public are cautioned against infringing on it, as the law will be enforced.

THE PATENTEE OF THE

Stove,

THE

OAK STOVE,

For parlors and halls, it is far preferable to a Grate, and more durable and ornamental, with an opening to see the fire. It gives a regular and pleasant heat, avoids the dust and ashes, and requires very little attention, for when the urn is filled with coal it supplies itself until it is burnt out; and the small coal without the dust taken out will make heat enough for a large parlor. Any one, after one week's trial, if they do not suit, will be at liberty to bring them back, and receive their money. Also an assortment of other stoves. All orders punctually attended to, and thankfully received.

DR. N. B. LEIDY'S

HEALTH EMPORIUM,

AND WHOLESALE AND RETAIL

Drug & Chemical Warehouse,

No. 191 North Second Street,

A FEW DOORS BELOW VINE, PHILADELPHIA.

At the above Establishment is prepared *only*, and for sale wholesale and retail, the following celebrated Family Medicines.

Dr. Leidy's Sarsaparilla Blood Pills.

So justly celebrated for their efficacy in purifying the Blood and other fluids of the human body,; also for their purgative properties, operating mildly and gently, or powerfully, in proportion to the doses taken, without producing any weakness or prostration of the system, or even requiring any change of diet, restraint or deviation from accustomed habits or occupation.

They are recommended in all diseases of the Skin and Bones; Rheumatic affections; Ulcerations; Constitutional diseases, produced by Mercury or the Minerals, or the result of Venereal or Syphilitic affections. In short, they are adapted to all diseases of the Stomach, Liver, and Intestines, and all diseases produced by IMPURITY OF THE BLOOD, upon which depends so much the health and life of mankind.

☞ *Wholesale price,* $20 00 *per gross—Retail,* 25 *cents per box.*

Each box contains thirty pills. They are put up in square boxes, around which is a black and yellow label, containing on two sides the signature of the proprietor and sole manufacturer.

Of the virtues and universal efficacy of Sarsaparilla need not speak, as the world knows it; combined, however, with other ingredients in the above pills, it renders them a combination superior to all other pills in existence.

Dr. Leidy's Medicated Extract of Sarsaparilla.

Being a compound fluid extract of Sarsaparilla, of greater strength, (consequently greater efficacy) than any preparation of that kind manufactured in the United States. One bottle of this preparation is sufficient to make one gallon of Syrup, of equal strength with any of the compound or concentrated compound syrups in existence; costing less than two dollars per gallon, and usually sold at fifty cents to one dollar for half-pint bottles.

The receipt for making the Syrup accompanies the directions with each bottle.

The above preparation is free from all purgative ingredients, and may be used alone or in conjunction with the Sarsaparilla Pills, with the happiest effects, where a purgative may be necessary.

☞ *Wholesale price,* $84 00 *per gross—Retail,* $1 00 *per bottle.*

Dr. Bechter's Pulmonary Preservative.

The above medicine is universally employed throughout Germany, and is the only popular medicine there known for Coughs, Colds, Influenzas, Catarrhs, Asthmas, Whooping Cough, Spitting of Blood, and all Affections of the Breast and Lungs, and arrest of approaching Consumption—it having been there used for more than an hundred years with unparalleled success.

☞ *Wholesale price,* $42 00 *per gross —Retail,* 50 *cents per bottle.*

The proprietor's signature accompanies each bottle. Ample directions and numerous testimonials and recommendations, from physicians and others, accompanying each bottle.

A recommendation of great importance to the foregoing preparations is, they are prepared entirely from vegetables, warranted free from Mercury or the Minerals; and are also the production of a practical man and physician, who knows the true nature of medicines and their adaptation to diseases, attested by

DR. P. S. PHYSICK, N. CHAPMAN, W. E. HORNER,	DR. S. JACKSON, T. C. JAMES,	DR. W. P. DEWEES, W. GIBSON, R. HARE.

Electrico-Magnetic Remedies,

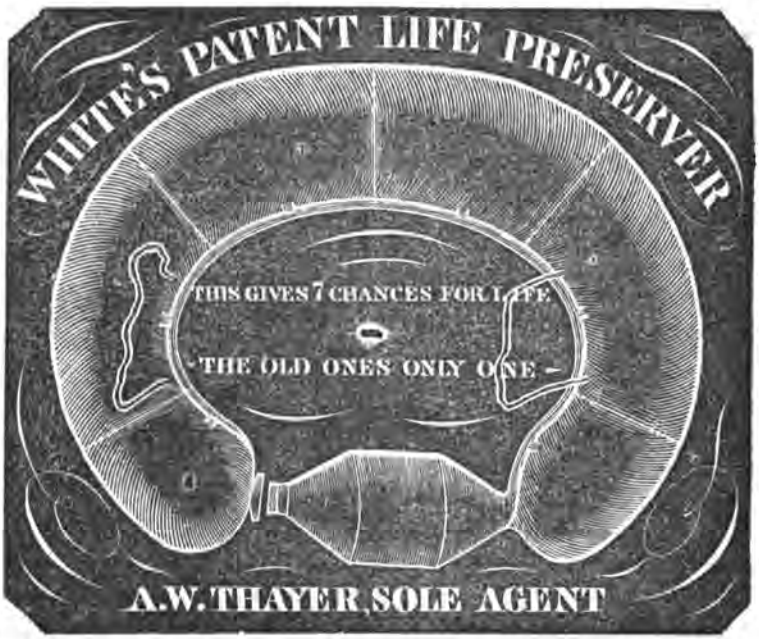
OR MEDICINES FOR THE CURE OF CHRONIC DISEASES

These remedies and medicines may be obtained at the Office of Dr. H. PARVIN, No. 68 South 6th street.

Dr. P. has had long experience in the use of SHERWOOD'S Electro-Magnetic remedies; will prescribe them in cases where they are efficacious, and is confident they will effect cures. He will treat all other cases either with the usual medicines, or with his ELECTRICO-GALVANICO MAGNETIC apparatus. His medicines all possess some modification of electrical affinity, and operate by the agency of that property.

Investigations in the theory of Electricity, as connected with organized animal matter, and particularly in that of the human body, demonstrate that all animal motion is the natural effect of the two opposite poles, causing muscular contractions and expansions. Morbid action in the human system is an unequilibrium of natural motion, and cannot be removed from it except by the operative influence of this invisible agent of nature. All medicines that have any tendency to remove morbific action from the system, must therefore necessarily possess some modification of electrical affinity, as there is no other operative property by which to increase, diminish, or change natural motion. It is obviously impossible for the human body to be in a diseased condition, and at the same time in a state of equilibrium of natural motion—for a universal equilibrium of natural motion in the human system constitutes PERFECT HEALTH.

☞ *Dr. Parvin also visits Patients at their Residence.*



This is one of the most valuable inventions ever conceived by human ingenuity. In point of usefulness it surpasses all other LIFE PRESERVERS, inasmuch as it has *from three to six separate Chambers, each independent of the others;* so that it affords FROM THREE TO SIX CHANCES FOR LIFE, while any other Life Preserver gives but ONE. It is also provided with *a Bellows*, to supply it with air, which of itself constitutes *an additional chamber.*

Logierian System of Musical Education.

29 South Tenth st. 4 doors below Chesnut street.

Mr. Browne, coadjutor and assign of *Logier*, the founder of said system, is the only "*Diplomatist*" of the Logerian system, that ever visited the United States of America. He is assisted by *Mrs. and Miss Browne*, and is prepared to initiate an additional number of pupils in *Theoretical* and *Pract cal* Harmony, on the *P ano Forte, Organ, &c. &c. S. Westly, Esq.*, who is acknowledged as the most profound organist that England ever produced, says of this system that it "*cannot fail of producing the two desirable consequenses, of correct fingering, with a secure and graceful positon of both hands* in performing on a *keyed instrument*: the universal and infallible utility of which, as well as an immense saving of time and trouble, cannot but be obvious and self-evident to all candid lovers of improvement and truth." Mr. Browne's pupils are taught to execute with an intelligence and rapidity almost inconceivable, entirely precluding that apparent awkwardness and distortion of the performer's *hands*, *arms* and *shoulders*, in such brilliancy of style and correctness of time, as cannot be acquired by any other method—the various styles of *Italian* and *English singing*, *Harmony* and *composition*, Analization, &c. &c.

The *axioms* and *peculiarities* of the Logierian system, have stood the test of the strictest investigation, It is established by the government in the Germanic Provinces—it has extended with great rapidity through all the European nations—it is taught under the express command of the *King of Prussia*, at the Royal Academy of Sciences at *Berlin, Vienna, Stockholm, Leipsic, &c.* It is patronized in Spain, in the most magnificent manner, by the *Aguntamiento*, and the various corporations, and the pupils are all, of the first families in the kingdom. In 1820, it was introduced by Messrs. *Sexto Peres* and *C. Peichler*, and the first academy was opened at Cadiz, and has been recently adopted by a number of professors, among whom are found the names of Mr. Wm. Sityar, Emanual Sanclementi, *first organist of Seville Cathedral*, Mr. E. Gomez, *second organist*, Riicker, &c. Every professor who adopted Mr. *Logier's* system, had previously to his receiving the knowledge of his discoveries to pay into his hands the sum of *one hundred guineas*, and to secure bonds for the further sum of five hundred pounds, as to their professional character, &c. &c.

The general list of the professors on this system on the continent of Europe, may be seen by applying at the academy. In London alone, more than forty of the most eminent professors have adopted it, among whom stand foremost, *Webbe, Bellamy, Kalkbrenner*, Wm. Henry, Cutler, Mus. Bac. Ox. Col., Drs. Essex, *Smith, Clarke*, T. Cooke, *Kiallmark, &c. &c. &c.*

This system of teaching music, comprises *three distinct branches*. The art of playing on the *Piano Forte*, and "*Organ*" &c. (in the elementary part of which is employed the "Chiroplast;"*) harmony and composition; and *the peculiar method* by which the instruction is conveyed to the pupils. The *lectures* combine innumerable branches of the abstract sciences, as relating solely to music, and the application of those sciences to practical harmony.

Mr. Browne instructed upwards of "*three hundred pupils*" of the first circle in Society at *Boston*, where he resided for several years. *Mr. Browne* is well aware of the exertive vigilance that has been resorted to, by *interested* persons in this city, in order to *misrepresent* a system, with which they are utterly unacquainted. *Miss Browne*, "Organist" of St. John's Church (the Lutheran) and formerly organist of *Christ Church Boston*, &c. &c., has for sale at the academy, and at all the music stores, her musical compositions, consisting of Songs, Variations, &c. &c.

Pupils may be attended either at their own residence, or at the academy, on *Logier's system*, or on the old methods, which Mr. Browne taught for several years. For *terms*, and further particulars, be pleased to refer to the academy.

Logier's Elementary books for sale.

Ladies and Gentlemen can be supplied with the most perfect "piano fortes," from the manufactory of *Louis Henri Browne*, who was in the employment of Chickering of *Boston*, nearly ten years (including seven years of a regular apprenticeship,) &c. &c.

Reliance Transportation Company's
Line of Portable Iron Boats.

The above Drawing is intended to represent an improvement in transportation of merchandise, coal, &c. on Rail Roads connecting with Canals; obviating the necessity of unloading cargoes of merchandise, coal, &c. from boats into cars, and vice versa.

These Boats are built of ROLLED IRON, in sections susceptible of being connected when on Canal, so as to form a boat, and separated when on Rail Road to answer as car-bodies, resting on cradles made to fit the curves of the boat and placed on eight-wheeled cars, which when connected are passed into canal by INCLINED PLANES or LIFT LOCKS, no hoisting machinery being required, as the water floats the boat from the cars.

This improvement is intended to give SECURITY TO GOODS, prevent SEPARATION OF LOTS, on the way, lessen the TIME OF DELIVERY and COST OF TRANSPORTATION, and add value to our coal regions by running the boats direct to the coal banks, (where the coal can be screened and made fit for shipping on its arrival at tide water,) saving wharfage, expenses, &c. equal to seventy-five cents per ton on every ton thus delivered on board Vessels. The transportation of coal within the next five years will perhaps equal 5,000,000 tons annually within the State of Pennsylvania, by this improvement several millions of dollars annually will be saved to consumers of Pennsylvania coal, if this means of transportation shall be generally adopted. In the transportation of merchandise, produce, &c. from the East to the West, &c. by Pennsylvania Canals and Rail Roads, a saving of upwards of a million of dollars per annum would now be obtained, by using the Portable Boat, &c.

The improvements in transportation between Philadelphia and Pittsburg within the last 50 years have advanced with rapid strides. Our drawing represents first the Pack Horse prostrate beneath a burden of some three hundred pounds weight, next the saving of horse power on Canal, on which one horse is capable of doing the work of 500 pack horses, and next represents a Locomotive propelled by steam moving heavy cars BURDENED WITH FREIGHTED BOATS, bounding up the towering heights of the Alleghanies startling the Deer from its lair, and striking with awe the Indian Hunter as the fiery meteor with its lengthened train flits across his path.

This improvement has been brought into use by a large expenditure of money and much THOUGHT and has met with serious opposition from the want of confidence in its practicability, and the opposition of many who have investments in Cars and Boats of a different construction the value of which must be depreciated by the introduction of a more cheap and expeditious means of transportation. We believe we have aided in advancing the interests of the community and ask of an enlightened and a liberal Public a portion of their favors as they have the power to show.

JOHN DOUGHERTY, No. 365 Market Street, Philadelphia.

Agent of Reliance Transportation Company, and Inventor of the Portable Iron Boat.

Our Boats are fitted with well furnished STATE ROOMS for the accommodation of travellers. Persons traveling with their effects will find it to their interest to travel by the Portable Iron Boat line.

General Machinists,

North-West corner of James and Twelfth street,

ON THE WILLOW STREET RAIL ROAD,

PHILADELPHIA,

Are prepared to receive orders for Machinery in their line, which they will engage to execute with promptness, and in a workmanlike manner.

They would particularly call the attention of Rail Road Companies to the improvements they have made in Locomotives, by which either Anthracite Coal or Wood can be used, with perfect facility, in boilers of the ordinary horizontal form. Also, to their eight-wheel Engines, which are admirably adapted to roads having high grades to overcome, and are capable of drawing heavier loads, (with less injury to Rail Roads) than any other description of Engine of the same weight used in this country.

Satisfactory references can be given as to the power and workmanship of their Engines by those who have used them.
