The Embassy has given the address of the reception center in Washington, and of the Foreign Press Liaison Section in New York to José Pardo Llada, well-known radio commentator for Union Radio in Habana on political affairs. Mr. Pardo Llada is interested in learning about the United States, making contact with possible purchasers of a series of articles on the political situation in Cuba, and in gathering materials for his campaign against extremism. Although a young man, Mr. Pardo Llada is well-known for his outspoken criticisms, which have involved him most recently in a duel. The Embassy will appreciate any help that can be extended to Mr. Pardo Llada.
