I am sure you will be pleased to learn of Dr. Prío's announcement that Carlos Hevia will be named Minister of State. Hevia is an exceptionally responsible and able person, who enjoys a splendid reputation. He is a graduate of the U.S. Naval Academy and served as President of Cuba for one day during the 1934 upheaval. He also served for a while as Minister of Agriculture in the Grau de facto government of 1934. His thorough understanding of this country and of U.S.-Cuban problems will, I am sure, contribute materially to an improvement in U.S.-Cuban relations.
