Item 144 in this inventory

P R E F A C E

The importance of the Fayssoux Collection of William Walker papers listed in this brief inventory is sufficient reason for its duplication, even in a limited edition. The scholar interested in filibusterers and filibustering, in "Manifest Destiny" in Latin America and its relation to United States history cannot neglect these important materials.

This is the first of a number of guides to manuscript collections in the Department of Middle American Research, fourth floor, Dinwiddie Hall, Tulane University of Louisiana, New Orleans, Louisiana. Mr. Frans Blom, Director of the Department of Middle American Research has given facilities for the work and made possible the duplication of the inventory, Mr. Arthur E. Gropp, Librarian and Miss Muriel Haas, Assistant Librarian have given valuable assistance.

Interested persons who wish to make use of these documents should communicate with Mr. Arthur E. Gropp, Librarian of the Department of Middle American Research, as the original owners have stipulated certain limitations to the use of the material.

This inventory was begun under the general direction of Mr. Lyle Saxon, State Director of the Historical Records Survey, Division of Women's and Professional Projects in Louisiana and completed under his successor, John C. L. Andreassen. The Project Supervisor has been Dr. Gaspar Lugano. The field foreman in the Department of Middle American Research has been Mr. Salo Kalisher Lowe. The editorial work is that of Mrs. Marie Irvine, the typist, Miss Eileen Callaghan.

HISTORICAL SKETCH

The Captain Callender Irvino Fayssoux Collection of William Walker papers was acquired by the Department of Middle American Research, Tulane University from Captain Fayssoux's daughter-in-law, Mrs. William Meh. Fayssoux, in October, 1933. The papers chiefly pertain to the Walker invasions of Nicaragua, 1855, 1857, 1860 and the Walker regime in that country, 1856-57, but biographical and miscellaneous data on both Fayssoux and Walker dates from 1834-1933. Fayssoux served Walker as aide-de-camp, paymaster, purchasing agent, naval commander and as minister general of the Republic of Nicaragua. The papers also disclose Fayssoux's connection with the Texas Navy, the Lopez expedition and the forces of the Confederacy. His foresight preserved these documents to the benefit of the historian.

The collection is contained in two metal lock boxes 15 x 7 $\frac{1}{4}$ x 11 inches, which are deposited in the Rare Book Vault of the library of the Department of Middle American Research. In the following analysis, dates are given when possible, number of items or pages, only when in excess of one, and parentheses contain information supplied by the editors. Unless otherwise stipulated, the entry is written in English.
