Dear Mr. Irvine:

Thank you for adding my name to the AIM Report mailing list. I'm looking forward to enjoy ~~the~~ ^{the} patriotic analyses.

I also received the "Washington Weekly" with the report on the Kettler matter and found your views very interesting. Thank you.

However, with sorrow, I see the activities of the CIA serving not the best interests of the United States but those of the enemies of our civilization. I don't see this as the purpose and desire of those involved with the Agency but rather as a result of an indecisive and weak flailing policy from the Administrations.

Perhaps we will experience some changes - for the best - after the presidential election. I believe so.

With all good wishes,

Sincerely yours,

Guillermo Novo

P/s. - The Gygachar Tiller is not here. When I first arrived here there were several (15 month ago) hijackers. I had the opportunity to speak to one of them, he was a marxist; but returned an anticommunist - after his experiences in Cuba.

We & now have 234 Cuban refugees. They are separated from the rest of the penal population. Many of them are very young (18 & 19 years old) and all are very anticommunist. This proves that after 20 years of indoctrination - they have failed in creating the "new man".
